*Haldirams Foods International Pvt. Ltd.*

- Developed MIS reports for performance tracking and management review
- Reduced reporting time through process improvements and automation
- Improved data accuracy using validation and reconciliation techniques

### MIS Executive

Mar 2022 – Oct 2023

*Age Old Spirits*

- Managed reporting data and supported decision-making processes
- Identified inefficiencies and improved reporting workflows

## PROJECTS

### Petroleum Sales & Logistics Dashboard (Excel + SQL)

[GitHub](#)

- Built an end-to-end petroleum sales and logistics dashboard using SQL-generated relational business data and advanced Excel
- Designed normalized SQL schema with dealer, product, route, invoice, and target tables to simulate real-world petroleum distribution operations
- Generated realistic synthetic transactional data with correlated revenue, delivery SLA logic, and business-consistent KPI relationships
- Developed KPI cards for Revenue, Target, Achievement %, Invoice Count, and On-Time Delivery monitoring
- Created dealer ranking, revenue comparison, and achievement analysis charts to identify top/bottom performers
- Applied advanced Excel formulas, conditional formatting, dynamic filtering, and dashboard design principles for executive-level reporting

## EDUCATION

---

### **B.Tech – Electrical Engineering**

July 2020 – July 2024

*Dr. Babasaheb Ambedkar Technological University (DBATU), Maharashtra*

CGPA: 8.5 / 10

- Relevant Coursework: Electrical Machines, Power Systems, Control Systems
- Final Year Project: Analyzed electrical systems to evaluate performance and efficiency
